4300 Cherry Creek Drive South  
Denver, Colorado 80246-1530

Dear Gentlemen:

Enclosed please find a copy of the Preliminary Data Quality Objectives (DQOs) for the Industrial Area (IA) Sampling and Analysis Plan (SAP). This version of the Preliminary DQOs contains responses and associated text modifications related to comments from the Colorado Department of Public Health and Environment (CDPHE). The comment response is also included as Attachment 2. These Preliminary DQOs will be included in the IA SAP and will be expanded to include more detailed sampling and analysis DQOs.

The DQOs for the IA SAP provides key IA characterization and remediation decision rules. These DQOs are based on U.S. Environmental Protection Agency Guidance for the Data Quality Objectives Process. DQOs have been established to review existing IA data, identify data gaps, and define additional sampling and analysis.

If you should have any questions related to this document, please feel free to contact me at (303)966-5918 or contact Norma Castaneda of my staff at (303)966-4226.

Joseph A. Legare  
Assistant Manager  
for Environment and Infrastructure
